SUMMARY

Motivated Computer Science and Engineering undergraduate specializing in Information Systems, with hands-on experience in building full-stack web applications. Skilled in modern frontend and backend technologies, with a strong interest in Artificial Intelligence, Machine Learning, and data-driven systems. Actively exploring AI integration in web applications, including API-based AI tools and smart features. Passionate about developing scalable, user-friendly applications and continuously learning new technologies like AI agents, ML workflows, and automation systems. Seeking an entry-level web development role to apply technical skills and contribute to meaningful, intelligent digital solutions.

EDUCATION

American International University-Bangladesh , Dhaka <i>Bachelor of Science — Computer Science & Engineering</i> CGPA – 3.22 out of 4.00	Jan 2022 –Present
Police Lines School and College , Rangpur <i>Higher Secondary Certificate (HSC) - Science</i> GPA – 5.00 out of 5.00	July 2018 – April 2020
Setabgonj Ideal Academy , Dinajpur <i>Secondary School Certificate (SSC) - Science</i> GPA – 5.00 out of 5.00	Jan 2016 – March 2018

EXPERIENCE

Software Engineer Intern	May 2026 – Present
---------------------------------	--------------------

Mustaruusu Technology Asia, Dublin, 7, Ireland

Responsibilities:

- Collaborating with cross-functional teams to gather requirements and develop scalable web applications.
- Designing and implementing responsive and user-friendly front-end interfaces using modern JavaScript frameworks.
- Developing and maintaining RESTful APIs and server-side functionalities.
- Working with relational and NoSQL databases, including query optimization and schema management.
- Implementing authentication, authorization, and secure coding practices.
- Participating in debugging, testing, code reviews, and performance optimization.
- Using Git and CI/CD pipelines for version control and deployment automation.
- Working with Docker and cloud-based deployment environments.
- Optimizing applications for cross-browser and cross-device compatibility.
- Contributing to Agile development processes, technical documentation, and team collaboration.

Web Developer Intern	Jan 2026 – April 2026
-----------------------------	-----------------------

D Huda Tech UK Limited, 124 City Road, London

- Developed responsive and user-friendly interfaces, improving frontend performance and usability
- Collaborated with cross-functional teams to deliver real-world web solutions
- Identified and resolved bugs through testing, enhancing application stability and user experience
- Integrated AI APIs (OpenAI, Gemini, Hugging Face) to implement intelligent features
- Applied prompt engineering and contributed to chatbot development and automation workflows
- Created and structured JSON datasets for AI chatbot training
- Assisted in data preprocessing, labeling, and basic model fine-tuning
- Generated dynamic HTML/CSS templates from structured agreement data

- Applied SEO strategies using SEMrush to improve visibility and performance
- Designed UI assets and templates using Canva
- Managed tasks and workflows using Trello

PROJECTS

UniShare – University Resource Sharing Platform <i>Next.js, React.js, Nest.js, Node.js, PostgreSQL, Tailwind CSS</i>	
• Built a full-stack academic resource-sharing platform with role-based access • Developed responsive frontend using React.js, Next.js, and Tailwind CSS • Created RESTful backend APIs with NestJS and Node.js for resource management • Tested APIs using Postman and integrated PostgreSQL for data storage	GitHub
School Management Web Application <i>HTML, CSS, JavaScript, PHP, MySQL</i>	
• Developed a responsive school management system with role-based login functionality • Built PHP/MySQL backend for user authentication, admissions, and data management • Designed a simple and user-friendly interface for a smooth user experience	GitHub
Trip Planner – Travel Agency Web App <i>React.js, Next.js, Tailwind CSS</i>	
• Developed a responsive travel booking web app with multiple pages, including Home, Tours, About, Contact, and authentication • Implemented clean UI design and Next.js routing for smooth navigation	Website
Movie Discovery Web App <i>React.js, Tailwind CSS, OMDb API</i>	
• Developed a responsive movie discovery web app with real-time search functionality • Displayed movie details, including ratings, release dates, and descriptions, using OMDb API • Implemented loading states, error handling, and fallback UI for missing data	GitHub
EatUp – Food Delivery App <i>Next.js, React.js, Tailwind CSS</i>	
• Developed a responsive food delivery frontend with modern UI/UX and an interactive menu system • Implemented Add to Cart, cart management, and order tracking using local storage • Ensured a fully responsive design for smooth experience across all devices	GitHub
RStudio Data Science Project <i>R, dplyr, ggplot2</i>	
• Performed data preprocessing, exploratory data analysis (EDA), and outlier treatment • Applied feature encoding, normalization, and data cleaning techniques for better analysis • Created visualizations using ggplot2 to extract insights and present findings	GitHub
Smart AI-Powered Weighing System <i>ESP32-CAM, C++, Edge Impulse, HX711</i>	
• Built an AI-based smart weighing system integrating ESP32-CAM, load cell sensor, and Edge Impulse ML model for real-time object classification • Calculated item weight and dynamic pricing using sensor data fusion and camera-based inference	GitHub
Animated 2D Graphics Simulation <i>OpenGL, C++, GLUT</i>	
• Developed an interactive 2D animated environment with moving vehicles, sun, windmill, and river effects using OpenGL • Implemented real-time animation, user controls, and speed adjustment using GLUT timer and keyboard input	GitHub

SKILLS

- **Languages:**
TypeScript, JavaScript, HTML, CSS, PHP, C++, Python, R
- **Frameworks & Libraries:**
React.js, Next.js, NestJS, Express.js, Tailwind CSS, TypeORM, Zod, Axios
- **Runtime Environment:**
Node.js
- **Database:**
MySQL, PostgreSQL
- **Tools & Technologies:**
Git, Postman, pgAdmin 4, RStudio, RESTful APIs
- **Design & Marketing Tools:**
Canva, SEO tools, SEMrush

CERTIFICATIONS

AI Workshop (Google Cloud)	November 2025
Web development (Internship)	Jan 2026 – April 2026
IELTS Masterclass (Certificate of Participation)	December 2025
